It also contains a 44 page Teacher's Resource Book that shows how to use the interactives in a variety of ways in the classroom:

- ➔ by students as a digital resource in the classroom on individual computers
- ➔ by students in their own time on their own computers
- ➔ by teachers as a whole-class approach, projecting the program to a large screen
- ➔ by teachers as a print-based activity.

The Resource Book includes step-by-step suggestions, as well as photocopiable student worksheets and supplementary primary sources.
